

Pharmapod is LFPSE-Compliant

Pharmapod simplifies medication incident reporting and ensures your pharmacy meets mandatory NHS reporting standards

About Pharmapod

Pharmapod is the global cloud-based, business intelligence tool for patient safety and clinical services, specialising in medication incident management in pharmacy, specialty pharmacy, community, long-term care, and hospital settings. Pharmapod increases accurate reporting, enables improvements at scale, and enables improved inspection and quality processes.

We are the trusted technology partner to more than 1,500 leading UK chain and independent pharmacies, who use our Incident Management platform to improve patient safety. We also facilitate compliance with the UK's Quality Payment Scheme.

One Easy Platform For NHS-Compliant Reporting

The NHS is mandating UK pharmacies use its Learn From Patient Safety Events (LFPSE) service for all incident reporting. Applied across the healthcare sector, LFPSE will centralize patient safety event reporting in one national system offering improved tracking, analysis, and insights for all UK safety events.

Pharmapod's platform ensures LFPSE compliance and reduces pharmacy workloads, with a safety event reported just once through our connected digital platform.

Our [Incident Management platform](#) generates accurate, high-quality reports to meet your governance, management, and inspection needs. Benefits include:

- Comprehensive data analytics solution with 56 individual reports
- Increase the recording of errors and near-miss events
- Continuously improve patient safety and clinical outcomes
- Reduce time spent recording errors
- Improve operational efficiencies and data quality
- Consolidate quality and professional processes into a cloud-based system

Meet LFPSE requirements, reduce staff workloads and simplify reporting with Pharmapod. [Contact us to learn more or book a 1-1 demonstration.](#)
