Enhancing Medication Safety in Long-Term Care Homes

Pharmapod is a cloud-based, business intelligence (BI) tool for resident medication safety and CQI initiatives. We are the global leader in data measurement for medication safety. Our domain experts in long-term care help you mitigate risk, reduce costs, address recent Public Inquiry recommendations and meet compliance when fixing long-term care with quality initiatives.

About Pharmapod

Professionally led by pharmacists for pharmacy. Our technology is utilized by leading global pharmacy brands and healthcare providers to drive data-driven innovation and quality. Pharmapod has a proven track record of successfully enhancing pharmacy workflow, improving quality policies and systems related to medication safety.

Pharmapod Canada

Pharmapod is the software of choice for over 65% of all pharmacies in Canada. Pharmapod was selected by the Ontario College of Pharmacists (OCP) to implement the largest medication safety program of its kind in Canada.

A **think**research Company

A digital platform for automating and standardizing system-level effectiveness to drive excellence in medication safety and quality improvement.

Most residents need medications. Errors and near-miss events happen. Pharmapod's solution makes it simple for care home and pharmacy teams to monitor the quality of their medication management system practices, proactively identify areas of potential risk, collaborate across sectors, and implement action plans to improve safety and quality in both care home and pharmacy practice.

Pharmapod for Long-Term Care Homes

- **Data insights within each home delivering autonomy over internal data as well as aggregated benchmarking** with other homes regionally.
- **Monitor resident safety in real time** with dashboard visibility for leadership and quality teams.
- **Measure results** over time with graphs, action logs, case management, charts and reports.
- Ability to **link home and pharmacy reports as well as change root cause as needed.**
- **Quick** digital reporting, **role-based** access, **tracking and trending** of cases, Pharmapod customer success **training and live chat, phone, and email support.**
- **Ministry-inspection ready** with quickly retrievable status of all home **action plans and annual improvement reports.**
- **Communicate easily via the platform.**
- **Return on investment in resources and time saved**, summarizing incidents, case summaries, action plans, learning points and improvement plans when preparing for **professional advisory committee meetings.**
- Executive/Board meeting preparation is quick and easy with instant charts, event trend analysis, root cause analysis, normalizations, reporting rates, safety reports, risk management results, and privacy breach records.

The Pharmapod LTC system allows you autonomy over your own incident management and data reporting in-house. It can be applied to any long-term care pharmacy you're with.
