

Pharmapod Safety Institute PSO

Enhance medication safety and focus on quality improvement work in a safe, legally-protected environment.

What is a Patient Safety Organization?

Patient Safety Organizations (PSOs) are entities that work to improve patient safety and the quality of healthcare delivery in the United States.

Pharmapod's PSO aggregates and analyzes healthcare data and information (referred to as Patient Safety Work Product or PSWP) and provides valuable, anonymized feedback, enabling members to learn and make improvements as efficiently as possible.

Why Pharmapod PSO?

Pharmapod's PSO is designed for pharmacies and is one of the only pharmacy-specific PSOs registered with the U.S. Federal Government Patient Safety Organization Program. We provide expert guidance to improve policies and systems related to medication safety.

More Data, Better Outcomes

Standardize and aggregate data from medication errors and near-miss events to pinpoint process problems and support your Continuous Quality Improvement and Just Culture journeys.

Innovative, Cost-Effective Technology

Pre-defined questions funnel users through incident & near-miss reporting, saving time while ensuring quality data collection and an array of standardized reports available for analysis.

Legal Protections, Expert Guidance

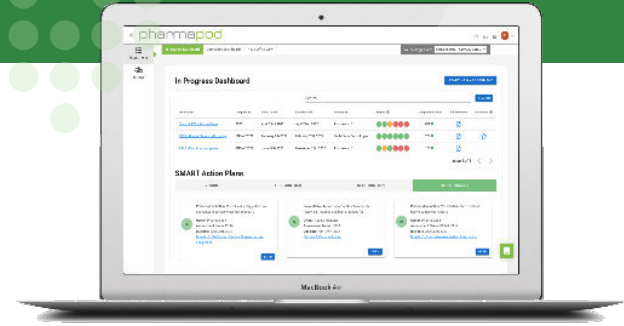

Enjoy federal protections against legal discovery of declared patient safety work product, plus guidance on how to respond if a request for patient safety work is received.

Dedicated Team, Regular Training

Comprehensive onboarding with ongoing training and education.

Benefits of Joining Pharmapod's PSO

- ✓ Improve patient safety.
- ✓ Gain insight into underlying causes of harm.
- ✓ Engage in patient safety and quality initiatives (process evaluation, root cause analysis, action plans, safe tables).
- ✓ Learn from others with access to data-driven reports, best practices and aggregated information.
- ✓ Ensure compliance if your state requires pharmacies to implement a CQI program to detect, identify, and prevent prescription errors.
- ✓ Comply with APhA guidelines on establishing a just culture approach to patient safety.

Overview of Pharmapod PSO Membership Benefits

Federal Protection

- Protection of your patient safety work products

Legal Support

- Referral to legal services regarding litigation protected by the Patient Safety Act

Patient Safety Evaluation System

- Incident management system
- Insights Pro
- Reporting – Pharmapod Safety Institute benchmark reports
- Document management system
- PSES policy and procedure template

Onboarding

- Dedicated PSO contact
- Determination of authorized workforce
- Training of client PSO contact
- Workflow and product training
- PSO overview (Template, Pre-recorded webinar)

Training and Education

- Annual confidentiality training & supporting materials (including recorded training session)
- PSWP training (Identification, Storage and management)
- Templates addressing appropriate responses to requests for PSWP
- Guidance on internal & external requests for PSWP
- Collaboration with patient safety experts for analysis and to improve analysis of PSWP
- Industry safety alerts developed by the Pharmapod Safety Institute
- Regular updates and communications on current industry issues, including recommendations for implementing patient safety and quality improvement activities
